

EXIDE XPRESS

THE HIGHWAY LEADER

COMMERCIAL VEHICLE BATTERIES

EXIDE XPRESS demonstrates superior power on endless highway drives with commercial and utility vehicles. The heavy-duty batteries generate instant ignition even after reasonably prolonged idle stand. It sets a standard of efficiency, reliability and durability on Indian highways for decades. Advanced hybrid alloy plates present in every **EXIDE XPRESS** unit, sets highest benchmarks of robustness and cost-effectiveness. Specially designed poly-propylene containers with strengthening ribs are immensely efficient to withstand vibration and bumps. **EXIDE XPRESS** batteries have micro-porous filter discs in vent openings, to arrest acid fumes and restrict spark propagation inside. With ultra-low maintenance requirements, no wonder leading heavy vehicle manufacturers in India choose factory-fit **EXIDE XPRESS** to roll out their products.

XPRESS ADVANTAGES

Ultra-low maintenance Special hybrid alloy ensures low water loss even during extremely high temperature operations.	Quick recharge Unique grid design and lower internal resistance through special chemistry enhance recharging capability.	Ready to use Shipped in filled condition and factory charged. No topping up or bench charge is required before installation.
