

MC040S On/Off Function Smart Version

Function	On/off Smart Version
Operating Voltage	220~240VAC (50/60Hz)
Rated Load	400W(Inductive) 800W (Resistive)
Standby Power	≤1W
Mounting Height	6m max
Operating Temp (°C)	-25--55
IP	20
Applicable	LED Light

Features

- Automatically switching based on motion and light level.
- Zero-crossing point operation helps to protect the sensor against in-rush current.
- 4 pole press-in terminal (L,N,N,L) , easy to assemble.
- Detection area, time delay and daylight threshold can be precisely set via DIP switch.
- Wide detection area range, up to 12m diameter.
- Hold time: 5s ~ 30 min.
- Applicable for wall installation & ceiling installation.
